(Free-text answer - not filled in for this example)

## Team specific details

### Customer service team queue or case reference

Complete when relevant to this request.

Operations

### Response expectations escalation route and customer handover needs

(Free-text answer - not filled in for this example)

## Limitations and what needs setup

- Submitting the form records the answers in your workspace. It does not approve, schedule, charge or reply on its own unless you add that step to the workflow.
- No payment is taken by default. Online payment needs a connected payment account and is configured separately.
- File uploads work online only. The printable version lists the documents to attach but cannot collect them.
- Some questions become required only after certain answers. The printable version shows every question.
- Email notifications, approval routing, document generation and connections to other systems are available but not switched on until you configure them.

### Want help tailoring this form? Free, Starter and Pro include five personal setup sessions, up to 30 minutes each, per new organization.
